Duration **50 minutes**

Age **tout public**

Genre **circus theater**

Techniques **Clown /visual comedy/without words**

Suitable for any kind of audience and space

Winner of Best show award in Babel Fest 2019 – Romania

There are a German, an American and an Italian man.
It may seem the beginning of a funny joke, but it is a true story.
Three clown-soldiers, survivors from all wars of history, who come to erect a war memorial for every war and remember how much stupidity there has been in history.

If it happens that they are the ones to surrender to the vice they are exposing.. then everything becomes confused and we end up laughing at the stupidity of stupidity.

Among classic and surprising gags, misunderstandings and betrayals, watching with our usual eyes the clowns' naivety and the man's weakness, to laugh at both in a play and to think again about it on our way home, maybe in front of the tv or while watching the usual TV news.

Technical requirements

Assembly: 1 hour and 30 minutes

Disassembly: 1 hour

Scenic space required: minimum 8 x 8

Flat ground

The electric current load:

- 220 volt for audio;
- Minimum load 5 kgwatt for lights;
- Adaptation to essential electrical loads.
