An empty square, a stage that hasn't been built yet, and the meeting of our beloved Mayor is ready to start.. We are late! But soon along the town streets merry notes and the sound of a car machine can be heard ... yes!

It is the thunder of the light sky blue sporting car carrying the two town council workmen.

Finally the meeting will be ready to start! But don't get upset at their appearance, these two men are the best in town!

Look how easily they build the stage for the Mayor meeting! But what would happen in case even the Mayor is late?

Among gags, acrobatics and magic... there would be nothing to do, just... waiting! In a speed running world, these two modern "Laurel & Hardy" will lead us through the slow, suspended time of the waiting.

And what if the Mayor does not come? Be cool... the show must go on!!!
